

QUICK START GUIDE

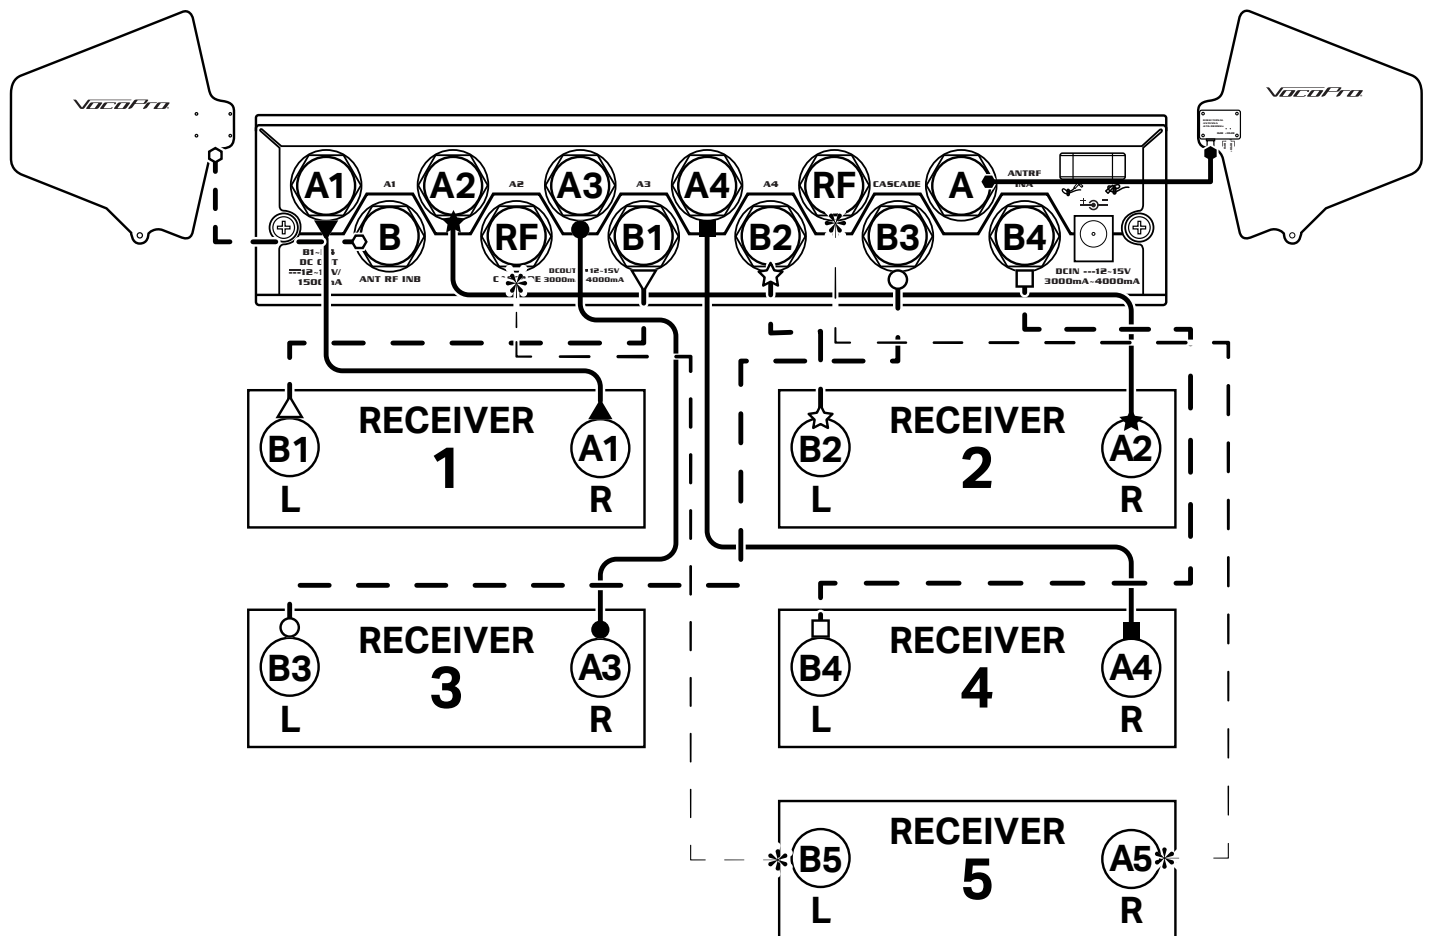

Fin-Acapella/Conference/Play-20

Thank you for purchasing this system!

Package includes:

- 4X Digital-Quad Fixed Frequency Systems (900MHz)
- 1X Digital-Quad Selectable Frequency System (500MHz)
- 1X Benchmark Antenna Distributor w/ 2 Fin Antennas
- 5X XLR Quad Cables – 6' Length

This diagram shows how to connect the Fin Antennas to the Antenna Distributor as well as how to connect the Antenna Distributor to each of the five receivers. Please see each item's User Manual for further details.

- Use the BNC cables to connect from the Antenna A sockets on each receiver to the A1, A2, A3, and A4 sockets on the top row of the Distributor. Connect from the Antenna B sockets on each receiver to the B1, B2, B3, and B4 sockets on the Distributor. For the fifth receiver, use Cascade A and Cascade B to connect to the receiver's Antenna Inputs.
- Connect from the Antenna RF in A and Antenna RF in B to each of the Directional Antennas.
